

VISION STATEMENT: A Welcoming Place to Know and Experience God's Love.

WE BELIEVE IN OUR VALUES OF.....

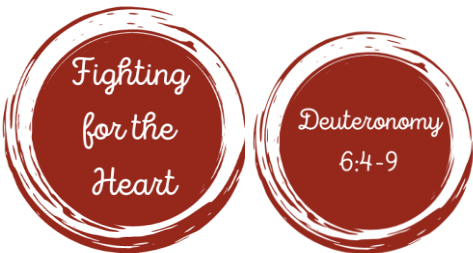

God shows us the strength in relationships and community throughout the Bible. This is why we come together in several ways throughout our church community. Knowing in Christ we are stronger together.

It is clear through Scripture that we have a shared humanity. God calls us to love others in the same way God loves us. That is why our church aims to grow in showing this love to our congregation and surrounding community.

Jesus shows us the strength in vulnerability which is the state of being that we experience during times of uncertainty, risk, and emotional exposure. As a Church we believe in having the courage to show up, fully engage, and be seen even when we can't control the outcome.

We believe God values a personal relationship with everyone. Christ teaches us this through his journey to the cross by showing us the most important thing to fight for is the heart. This is more important than winning an argument or making a point. God wants our hearts and fights for it so we aim to do the same.

God is big enough for our doubts and invites us on a journey for every season of life. That is why we believe in embracing this journey with humility knowing God always has more to teach and show us. As a Church we aim to support others practically and spiritually in their journey.
